PERSONAL STATEMENT

Sally Stone Richmond for Delegate

It would be a privilege to serve as a delegate on PCACAC's Executive Board. PCACAC - and our sibling affiliates - are vital advocates for both our profession and our individual members. Serving our profession as a delegate has never been more important to me. Not only must we be strong as an organization, but we must be mindful of the ways we professionally support and develop our colleagues. We will best achieve our mission to advocate for all students in their college process by ensuring that our profession seeks and retains a talented and diverse cadre of counselors.

This industry has afforded me opportunities to grow, learn and live out our mission. And it has introduced me to sung - and unsung - heroes and heroines in this work, many of whom have become mentors. By serving as a delegate, I hope to pay their commitment forward.

With over twenty years' employment on both the high school and college sides of the proverbial desk - including involvement with PCACAC, SACAC and WACAC - I can offer experience, wisdom and collaboration to this team of devoted colleagues. Thank you for your consideration.
